2011 Pre-Conference Workshop

ExCEL is a University of Arkansas Division of Agriculture experiential-based training and development program. The 4-H Camp Program team provides opportunities that engage learners in the development of skills to address issues and challenges that one may face in their daily environments.

The activity will be offered on October 5-6, 2011 at a cost of \$30.00 per person. Registration will be separate from the SRVF.

ExCEL has offered the best in experiential leadership training since 1986 to youth, college students, adult, non-profit and corporate groups. The experiential training model provides an effective environment for change. The ExCEL program utilizes teambuilding and leadership initiatives to actively engage participants.

This program is the home of one of Arkansas' largest and most experienced challenge course. Some of the training tools used with the ExCEL program includes ground based initiatives (experiential activities that do not involve leaving the ground), a low ropes course, an artificial rock climbing tower, a Giant's Ladder, and a high ropes course.

Service Project

The American Cancer Society

Relay for Life

Arkansas chose *The American Cancer Society/Relay for Life* as the 2011 service project. We want your state to raise money for the American Cancer Society by involving volunteers and 4-H members.

We chose this project because there is no direct cost for participants. Our goal is to see how much money each state can raise by hosting an event. ALL money will stay in the state where the event is hosted.

Relay for Life is the signature activity of the American Cancer Society. It is a time to celebrate, remember and fight back against cancer. Teams camp out at a local high school, park or fairground and take turns walking or running around a track or path. Each team is asked to have a representative on the track at all times during the event because cancer never sleeps. Relays are overnight events up to 24 hours in length.

Relay for Life is often described as a life-changing event. Each year more than 3.5 million people in nearly 5,000 communities nationwide gather to celebrate the lives of people, who have battled cancer, remember loved ones lost and fight back against a disease that takes too much. By providing the opportunity to take action against cancer, *Relay for Life* unites communities and inspires hope that cancer will be eliminated.

Cancer survivors are at the heart of *Relay for Life*. The event brings families, friends, coworkers and communities together to celebrate victory over cancer and to support people still battling the disease. Each event opens with an inspirational Survivors Lap that symbolizes the steps we are taking toward hope and healing.

Caregivers are also recognized and celebrated at Relay for Life. At Relays, people understand the frustrations and joys of being a caregiver. There is a peace of mind in knowing that together we can face the many challenges cancer poses.

We ask each state to provide a basket in memory /honor of someone who has been touched by cancer. The content could depict her/his favorite hobby or personality. The basket will be used in a silent auction.

An abbreviated *Relay for Life* event will be held Saturday night after the Diamond Banquet as a time to come together and celebrate hope for the future. Luminaries will outline a path in honor of someone who has been touched by cancer. Forum participants will have the opportunity to purchase and decorated the luminaries.

Each state will have a volunteer contact person responsible for keeping track of the money raised in state. The total will be reported at final assembly. Arkansas will provide each state with the contact information for their American Cancer Society state contact. The contact will provide the necessary information to raise money.

We hope this will be a fulfilling experience for volunteers and 4-Hers who have not faced cancer and for those who have. Let's show how much 4-H cares!
